

Client Information Form

Client Onboarding · understand the organisation, people, needs, and intended outcome

Purpose. This form helps LEA Labs understand the client before recommending a programme, service, or partnership pathway. The information should support a useful, respectful, and outcome-focused onboarding conversation.

1 · Client details

Field	Information
Organisation / client name	
Organisation type / sector	
Registration / reference	
Primary contact	
Email / telephone	
Website / location	
Date received	

2 · About the client

LEA Labs works with individual learners, families, schools, NGOs, community organisations, corporate teams, and strategic partners. Understanding the client's context helps LEA connect the right mix of learning, technology, human guidance, and operational support.

What the organisation does and who it serves:

Current priorities, challenge, or opportunity:

What has already been tried:

3 · Desired LEA Labs outcome

LEA's promise is practical: clear teaching, guided practice, evidence of capability, and a more confident next step. Describe the result the client wants to see, not only the activity they want to purchase.

Desired outcome:

Who should benefit:

Evidence that the work has succeeded:

4 · Delivery and support needs

Preferred programme, service, or support format:

Location, platform, schedule, and accessibility needs:

Expected participant numbers or users:

Internal champion / decision-maker:

5 · Information, safeguarding, and data

Information or materials LEA will need:

Safeguarding, inclusion, or special support considerations:

Personal-data or confidentiality requirements:

6 · Commercial and procurement context

Budget range or funding source:

Procurement, quotation, invoice, or approval process:

Target start date and decision deadline:

7 · LEA Labs internal assessment

Relevant LEA capability:

Recommended next document: ☐ Programme Selection ☐ Concept Note ☐ Quotation ☐ Statement of Work ☐ Other

Onboarding owner and next action:

Record handling. Store this form securely and collect only information needed to provide an appropriate LEA Labs response.
