

Payment Tracker

Finance · follow quotations, invoices, receipts, balances, and next action

Purpose. Use this tracker to keep LEA Labs finance and delivery records connected. Each row should point to an approved commercial document and a verified payment record.

1 · Tracker details

Field	Information
Reporting period	
Prepared by	
Last updated	
Account / programme	
Currency	KES

2 · LEA Labs finance context

LEA Labs delivers value through learning, training, technology, and connected operational support. Payment tracking should therefore be reviewed alongside delivery status: whether the agreed work has started, what evidence has been produced, what remains outstanding, and whether any financial issue could affect the client experience.

3 · Payment register

No.	Client / programme	Invoice ref.	Invoice date	Due date	Amount	Status
1						
2						
3						
4						
5						

4 · Reconciliation notes

Overdue or disputed items:

Payments received but not yet allocated:

Credit notes, refunds, or adjustments:

5 · Follow-up and controls

Next collection / client contact:

Owner: Target date:

Delivery impact or risk:
