

Programme Report

Reporting & Impact · document delivery, participation, learning, evidence, and next steps

Purpose. This report explains what LEA Labs delivered, who participated, what was produced, what was learned, and what should happen next. It should be evidence-led while keeping the people and outcomes behind the numbers visible.

1 · Programme details

Field	Information
Programme / service	
Client / partner	
Reporting period	
LEA Labs lead	
Prepared date	
Reference	

2 · LEA Labs delivery context

LEA Labs connects practical learning, human guidance, and opportunity. The programme should be understood through the LEA rhythm: **learn** → **evolve** → **advance** → **impact**. Report not only what sessions or services occurred, but how people practised, what evidence was created, how feedback changed the work, and what next opportunity became possible.

3 · Executive summary

What was delivered:

Who was reached and what changed:

Main achievement and main challenge:

4 · Delivery record

No.	Activity / milestone	Date	Participation	Output / evidence
1				
2				
3				

4				
---	--	--	--	--

5 · Participants and engagement

Target participants / users:

Registered / invited: **Attended / active:**

Completion / retention: **Inclusion notes:**

Engagement story or participant voice:

6 · Learning, service, or product outcomes

What people learned, practised, created, or adopted:

Evidence: projects, portfolios, assessments, certificates, products, or operational improvements:

How the LEA progress model showed up: start → practise → share → advance:

7 · Challenges and learning

What did not go as planned:

What LEA Labs and the client learned:

What should change in the next cycle:

8 · Recommendations and next step
