

Programme Selection Form

Client Onboarding · choose the LEA Labs pathway that best fits the intended outcome

Purpose. Use this form to move from a client need to a clear programme or service choice. Selection should be based on the people served, the outcome required, the delivery environment, and the evidence expected.

1 · Client and selection details

Field	Information
Client / organisation	
Primary contact	
Selection date

Expected start date	
Reference	

2 · LEA Labs programme pathways

Learning Platform: project-based curriculum, course building, content, assessments, coding practice, certificates, portfolios, and learner support. Best suited to structured learning journeys and practical capability development.

Corporate Training: digital fluency, applied AI, leadership, innovation, and early-career development for teams and organisations. Best suited to capability building connected to workplace outcomes.

Technology Services: architecture, full-stack integration, deployment, custom development, and practical digital products. Best suited to clients turning a problem, idea, or workflow into a useful technology solution.

Operations and connected support: school management, partnerships, finance, reporting, CRM, events, and learner workflows. Best suited to clients needing stronger coordination and delivery visibility.

3 · Selection

☐ Learning Platform ☐ Corporate Training ☐ Technology Services ☐ Operations / Support ☐ Combined pathway

Recommended pathway and reason:

Specific programme, package, or service requested:

Intended audience, learners, team, or users:

4 · Programme design choices

Primary outcome:

Delivery format: ☐ In person ☐ Live online ☐ Self-paced ☐ Blended ☐ Custom

Duration and schedule:

Level / entry requirements:

Support, accessibility, or safeguarding needs:

5 · Evidence and success measures

LEA Labs moves people through **start** → **practise** → **share** → **advance**. Select evidence that shows more than attendance: completed work, improved capability, confidence, certificates, portfolios, organisational adoption, or a clear next opportunity.

What participants or users should be able to do:

Evidence to collect:

Reporting audience and frequency:

6 · Commercial confirmation

Indicative fee / quotation reference:

Funding / payment route:

Client approval required from:

Important assumptions or exclusions:

7 · Confirmation

The client confirms that the selected pathway reflects the current need and may be refined during detailed scoping. Final delivery, price, dates, and responsibilities will be confirmed in the applicable quotation, Statement of Work, or agreement.
